

ECO-FRIENDLY RAILWAY SLEEPERS

www.finsa.es

DESCRIPTION

New Railway Sleepers, made from heat treated and tanalised pine.

Available in green or with a durable dark brown stain.

CHARACTERISTICS

Known in the market as Eco-Friendly, FINSA's Railway Sleepers are fresh cut and preserved without using any harmful chemicals. The tanalisation and staining process give the final product high durability and aesthetic appeal.

ADVANTAGES

All of our railway sleepers have been treated to comply with Classed Risk 4, defined in rule UNE EN 351-1: "solid wood treated with protective products. Part 1 Classification of penetration and retention of protective products"
