

PINE SHELVING

www.finsa.es

DESCRIPTION

Pine shelving with 3 horizontal shelves and 2 lateral supports. Ideal for interior and exterior storage or displays.

CHARACTERISTICS

The tanalisation process applied to the timber protects the wood up to level 3 humidity (suitable for exterior use).

The timber used is Pinaster Pine.

Due to the absence of arsenic and chrome, the Berthell treatment procedure used is recognised by EU Health & Safety Authorities.

APPLICATIONS

Interior and exterior storage and displays.

STANDARD FORMATS (mm)

- 1000 x 1000 x 30mm
